

Flexible, Easy-to-Use Network Monitoring and Management Software

DATA SHEET

Leader

EMEA

FALL 2023

Designed for today's multi-vendor networks, Entuity Software™ enables NetOps teams to more efficiently and effectively monitor, visualise and manage their networks.

Monitor

- Monitor more valuable metrics
- Supports thousands of devices, from hundreds of vendors out-of-the-box (including any SNMP-compliant device)
- [Intelligent event management system](#) reduces event noise 96.6%
- Extend beyond standard monitoring with [user-defined polling](#)

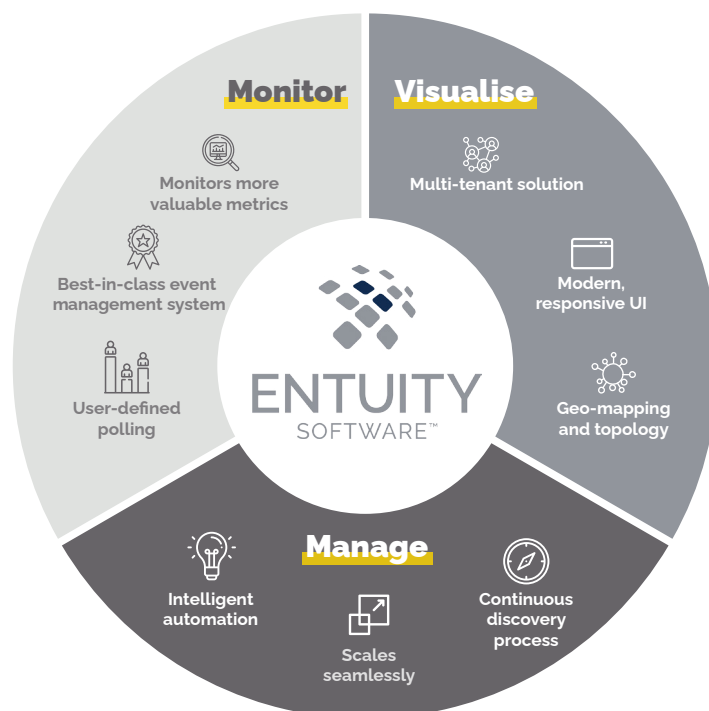

Visualise

- Modern, responsive user interface
- Dynamic [network topology and geographic maps](#)
- Customer report builder plus over 100 out-of-the-box reports
- Supports multi-tenancy to simplify management of multiple stakeholder event metrics

Manage

- [Automated network discovery](#) proactively adds and configures devices
- Configuration monitoring and management
- Intelligent automation
- Federated architecture for seamless expansion
- Integrations with leading ITSM tools

Optimising NetOps Productivity & Efficiency

NOC Dashboard

Integrated Flow

Key Features

- Supports thousands of devices, from hundreds of vendors out of the box (including any SNMP-compliant device)
- [SurePath Application Path Monitoring](#)
- Support for SDx platforms
- [NetFlow support](#)
- [Auto Discovery and asset management](#)
- [Live topology and geographic maps](#)
- [Event management and root cause analysis](#)
- Configuration management and monitoring
- Automate NetOps tasks
- Easy-to-configure dynamic dashboards
- 150+ out-of-the-box reports with a custom report designer
- Infrastructure support – server/storage/cloud
- Integration options with Park Place services

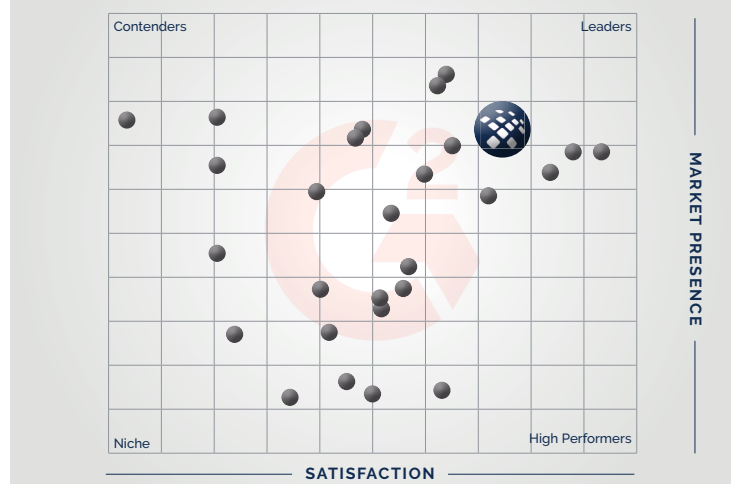

Key Benefits

- 99% reduction in event noise (events to tickets) so you can focus on what's important
- 45% reduction in mean time to repair
- Identifies anomalies and predictively alerts before service impact
- Increase staff productivity and efficiency
- Consolidate network management tools
- Reduce the cost of delivering improved network availability
- Lower total cost of ownership than other solutions

Entuity Software™ has been designated as a Leader in G2's Network Management Software category. Products are ranked by customer satisfaction (based on user reviews) and market presence (based on market share, seller size, and social impact).
